FOOD ENTREPRENEUR
- simulate the life of entrepreneurs.

Setting for project:
Food Entrepreneur is an elective course (3.5 ECTS) and was initiated at a Bachelor’s Degree Program in Nutrition and Health, VIA University College, Aarhus, Denmark in September 2013. 22 students participated in the fulltime 40 hours pr week scheduled entrepreneurial course.

Aim and methods for project:
The project investigates the learning outcome and the identity work going on at the course in a setting that provides opportunities to develop new activities, products and knowledge within the food and health industry. The study is based on qualitative interviews with five participants from the course, observation and case study.

Conclusions from Food Entrepreneur:
Important factors for the course design:
• Action, experience-oriented and participatory teaching
• Real life problems and personal projects
• Personal learning processes that creates involvement and higher motivation
• Support for individual and group reflection
• Meeting supporting role models

The project highlights:
- The importance of taking reflection processes into consideration when facilitating and guiding students in developing business concepts
- The need for a better understanding of identity work which is by students both described as a crisis and reflected
