4  ESPCH5 Welcome Address
5-8  ESPCH5 Conference Programme
9-25  Biographies of ESPCH5 Speakers, Chairpersons,
Panel Discussants & Winners of 2018 ESPCH Awards
Dear Conference Delegates, Speakers, Chairpersons, Students and Friends,

We are delighted to welcome you to the Fifth Annual Conference and Awards Ceremony of the European Society for Person-Centered Healthcare (ESPCH5).

ESPCH5 brings together a range of distinguished speakers and chairpersons from across the globe, including the United States of America, Canada, Australia, Germany, Portugal, Romania, Bulgaria, Italy, Denmark, and, in the United Kingdom, colleagues from the University of Oxford, University of West London, University of Kent, St. Mary’s University, University of Plymouth, Manchester Metropolitan University, University of Warwick, Imperial College of London and St. George’s, University of London. Over the intensive two days of ESPCH5, some 30 presentations will be delivered across 9 academic sessions, spanning a wide area of study of immediate relevance to the development and implementation of person-centred approaches within health and social care systems. Debates will take place as part of extended panel discussions, each of which includes a specially invited panel discussant in addition to the session presenters and session chairpersons.

Following the conclusion of Day One of ESPCH5, the Society will hold its 2018 Annual Awards Ceremony, at which the President and Chairman of Council of the Society, Professor Sir Jonathan Elliott Asbridge DSc (hc) DHSc (hc), will confer the Presidential Medal, the Senior Vice-Presidential Medal, the Platinum, Gold, Silver and Bronze medals of the Society, the Book Prize and the Essay Prize, the Society’s prizes for qualitative, quantitative and mixed methods research, and the Young Teacher and Young Researcher prizes. The Society is honoured to recognise the indefatigable efforts of this year’s medal and prize winners in their relentless work to ensure that our ever-increasing scientific knowledge base is properly contextualised – which is to say, applied within a humanistic framework of care that treats patients not as subjects, objects or complex biological machines, but rather as persons.

The ESPCH is a professional membership body for clinicians of all disciplines, social care professionals, academics working within the health and social care sciences, patient, carers, policymakers, and others. During the course of ESPCH5, delegates not already members of the Society will have the opportunity to apply for membership (Distinguished Fellow, Fellow, Member, Associate, Student) at reduced rates. Membership of the ESPCH affords free access to the European Journal for Person-Centered Healthcare, the official journal of the Society, and to the e-Bulletin of the ESPCH. Application forms will be available at the Registration Desk.

In concluding, we extend our gratitude to Professor Peter John BA, MA, MSc, FSCC, E(PhD), Hon DBA, FRSA, FHEA, FAcS, Vice Chancellor and Chief Executive of the University of West London, for granting the Society use of the superlative, state-of-the-art facilities of the Conference Suite of Paragon House, with its panoramic views of the Metropolis, and its first-class catering services.

Professor Sir Jonathan Elliott Asbridge DSc (hc) DHSc (hc), President and Chairman of Council.

Professor Andrew Miles BSc (1st Class), PhD, DSc (hc), Senior Vice President & Secretary General, European Society for Person-Centered Healthcare.

Fifth Annual Conference and Awards Ceremony
European Society for Person Centered Healthcare

Welcome

Day One An Introduction to Person Centered Healthcare

Day Two Practice and Development: Person Centered Healthcare Across the Continuum of Care
10:30 Practical approaches to the provision of person-centered care for people living with dementia
Dr. Gaëtan Braun, Consultant Psychiatrist, Community Mental Health Team (CMHT) for Older Adults, East London NHS Foundation Trust, London, UK

10:40 PANEL DISCUSSION WITH DELEGATE PARTICIPATION
With Panel Discussants: Maria de Lourdes Medeiros,长约教授, Faculty of Medicine, University of Porto Medical School (rtd) / Former Head of the Department of Surgery, St. João Hospital, Porto, Portugal

11:00 LUNCHEON

11:30 Why every healthcare consultation needs a dose of empathy
Dr. Jeremy Howard, Senior Lecturer in Applied Philosophy & Co-Director, European Institute for Person Centred Healthcare; Professor Catedrático, Faculty of Sciences and Health, Fernando Pessoa University & Professor Emeritus of Surgery, University of Porto Medical School (rtd) / Former Head of the Department of Surgery, St. João Hospital, Porto, Portugal

12:00 Patients and agents – or why we need a different narrative: a philosophical analysis
Dr. Phil Hutchinson, Senior Lecturer in Applied Philosophical Psychology, Department of Health, University of West London, London, UK

12:10 Why every healthcare consultation needs a dose of empathy
Dr. Jeremy Howard, Senior Lecturer in Applied Philosophy & Co-Director, European Institute for Person Centred Healthcare; Professor Catedrático, Faculty of Sciences and Health, Fernando Pessoa University & Professor Emeritus of Surgery, University of Porto Medical School (rtd) / Former Head of the Department of Surgery, St. João Hospital, Porto, Portugal

12:20 PANEL DISCUSSION WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

12:40 PANEL DISCUSSION WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

13:00 Measuring and Improving the Person Centeredness and Quality of Care
Mr. Mohammed Aljuaid, PhD Student, Department of Primary Care and Public Health, Faculty of Health and Medicine University of Newcastle, Australia

13:50 Measuring and Improving the Person Centeredness and Quality of Care
Mr. Mohammed Aljuaid, PhD Student, Department of Primary Care and Public Health, Faculty of Health and Medicine University of Newcastle, Australia

14:10 The MAKEtoCARE Initiative - developing original solutions, products and services to ameliorate the daily experience of people facing disability.
Dr. Filippo Cipriani, Rare Disease Patient Advocacy Lead & Head of Open Innovation Projects, Sanofi Genzyme, Modena, Italy

14:30 Spiritual and religious care in clinical practice – an integral component of person-centred care
Dr. Joachim P. Sturmberg, Associate Professor of General Practice, School of Medicine & Health Sciences, St. Mary’s Catholic University, Twickenham, London, UK

15:00 PANEL DISCUSSION WITH DELEGATE PARTICIPATION
With invited Panel Discussant Dr. Maria P. Pinto, Professor of Applied Philosophy & Co-Director, European Institute for Person Centred Health and Social Care, University of West London, London, UK

15:30 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Dr. Marcia Potter, Master Clinician, United States Air Force, United States

16:00 Resilience for Health – An Emergent Property of the “Health Systems as a Whole”? Do we bounce back or move forward?
Dr. Oscar Shuangning, Associate Professor of General Practice, School of Medicine and Public Health, faculty of Medicine and Health University of Newcastle, Australia & Foundation President, International Society for Systems and Complexity for Person Centred Healthcare

16:40 Burn out across systems and persons
Dr. Oscar Shuangning, Associate Professor of General Practice, School of Medicine and Public Health, faculty of Medicine and Health University of Newcastle, Australia & Foundation President, International Society for Systems and Complexity for Person Centred Healthcare

17:00 Management of affiliations in health institutions
Dr. Michel Augusto Cardoso de Oliveira, Vice-President (Southern Europe), European Society for Person Centred Healthcare; Professor Emeritus, Faculty of Medicine, University of Porto Medical School (rtd) / Former Head of the Department of Surgery, St. João Hospital, Porto, Portugal

17:20 PANEL DISCUSSION WITH DELEGATE PARTICIPATION
With invited Panel Discussant Dr. Maria P. Pinto, Professor of Applied Philosophy & Co-Director, European Institute for Person Centred Health and Social Care, University of West London, London, UK

17:45 CLOSE OF DAY 1

DAY 2

9:00 WELCOME AND REFRESHMENTS

9:10 KEYNOTE 2
FOCUS ON MEASURING PERSON CENTERED CARE, THE MAKEtoCARE INITIATIVE, SPIRITUAL AND RELIGIOUS CARE AND THE ETHICS OF HEALTHCARE CHAPLAINCY
Professor Andrew Miles, Professor of Person Centered Health and Social Care/Co-Director, University of West London NHS Foundation Trust, London, UK & Honorary Distinguished Fellow, European Society for Person Centred Healthcare

9:30 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

9:50 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

10:10 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

10:30 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

10:50 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

11:00 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

11:15 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

11:30 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

11:45 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

12:00 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

12:15 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

12:30 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

12:45 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

13:00 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

13:15 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

13:30 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

13:45 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

14:00 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

14:15 MANAGEMENT BREAK WITH DELEGATE PARTICIPATION
With invited Panel Discussant Professor Emerita Colonel (Rtd) Marilyn A. Ray, Christine E. Winner: 2018 ESPCH Book Prize

Second Day Sessions
7-12-2018

07:50 REGISTRATION AND REFRESHMENTS

08:00 Welcome to Day Two
Professor Andrew Miles, Senior Vice President and Chairman of Council, European Society for Person Centered Healthcare

Early Morning Session

08:00 CULTURAL VALUES IN SHAPING MENTAL HEALTH PRACTICE
FOCUS ON SHARED DECISION-MAKING AND THE VALUES AGENDA: THE ROLE OF SCIENCE, Perth, Western Australia, Australia

08:30 President’s Address
Professor Sir Jonathan Elliott Asbridge, Chief Patient Officer, Healthcare at Home UK; Deputy Chairman, Oxford Health NHS Foundation Trust & President and Chairman of Council, European Society for Person Centered Healthcare

08:40 The Balkan dimensions and balanced decision-making in values-based person-centered care
Dr. Benjamin Chin-Yee, Resident Physician, Department of Medicine, Faculty of Medicine, University of Newcastle, Australia & The Perron Institute for Neurological and Translational Medicine, University of Western Australia

09:00 Welcome to Day Two
Professor Bill (KWM) Fulford, Emeritus Professor of Philosophy and Mental Health, University of Warwick, UK

10:10 Shared decision-making: the values agenda, and the role of values-based practice
Professor Sir Jonathan Elliott Asbridge DSc (hc) DHSc (hc), President and Chairman of Council, European Society for Person Centered Healthcare, London, UK

10:40 The Balkan dimensions and balanced decision-making in values-based person-centered care
Professor Sir Jonathan Elliott Asbridge DSc (hc) DHSc (hc), President and Chairman of Council, European Society for Person Centered Healthcare, London, UK

11:00 PANEL DISCUSSION WITH DELEGATE PARTICIPATION
With invited Panel Discussors Dr. Benjamin Chin-Yee, Dr. Mathew Mercuri, and Professor Drozdstoj St. Stoyanov, Professor of Psychiatry, Department of Psychiatry, Medical University Plovdiv, Bulgaria & Adjunct Professor, University of Southern Denmark, Odense, Denmark

11:20 A review of the nature and extent of patient and public involvement across medical specialties
Dr. Elisa Ambrosi, Assistant Professor, Department of Medical and Surgical Sciences, University of Modena, Italy

12:00 Developing a new questionnaire to measure nurse caring behaviours: a mixed methods study
Dr. Joachim P. Sturmberg, Associate Professor of General Practice, School of Medicine and Public Health, University of Newcastle, Australia & Adjunct Professor, University of Sydney School of Public Health, Australia & Adjunct Professor, University of Sydney School of Public Health & The Perron Institute for Neurological and Translational Medicine, University of Western Australia

12:20 A review of the nature and extent of patient and public involvement across medical specialties
Dr. Joachim P. Sturmberg, Associate Professor of General Practice, School of Medicine and Public Health, University of Newcastle, Australia & Adjunct Professor, University of Sydney School of Public Health, Australia & Adjunct Professor, University of Sydney School of Public Health & The Perron Institute for Neurological and Translational Medicine, University of Western Australia

12:40 Defining the meaning, role and measurement of “values and preferences” in the practice of medical ethics
Dr. Joachim P. Sturmberg, Associate Professor of General Practice, School of Medicine and Public Health, University of Newcastle, Australia & Adjunct Professor, University of Sydney School of Public Health, Australia & Adjunct Professor, University of Sydney School of Public Health & The Perron Institute for Neurological and Translational Medicine, University of Western Australia

14:00 Traffic light risk classifications are a danger to person-centred decision making
Dr. Joachim P. Sturmberg, Associate Professor of General Practice, School of Medicine and Public Health, University of Newcastle, Australia & Adjunct Professor, University of Sydney School of Public Health, Australia & Adjunct Professor, University of Sydney School of Public Health & The Perron Institute for Neurological and Translational Medicine, University of Western Australia

14:20 Incorporating uncertainty in personalised medicine: understand or resign yourself? Life illustration (with live dialogue participation from Professor Jack Dowie as the “consultant”)
Dr. Mathew Mercuri, Assistant Professor, Department of Medicine, Division of Emergency Medicine, University of British Columbia, Canada & Adjunct Professor, University of Southern Denmark, Odense, Denmark

15:20 PANEL DISCUSSION WITH DELEGATE PARTICIPATION
With invited Panel Discussors Dr. Benjamin Chin-Yee, Dr. Mathew Mercuri, and Professor Jack Dowie, Professor Emeritus of Health Impact Analysis, London School of Hygiene and Tropical Medicine; Honorary Professor, University of Sydney School of Health and Urban Health; Adjunct Professor, University of Southern Denmark & Chairman ESPCH SIG on Public Participation and Engagement in Clinical Practice

16:00 Learning from significant medical events – a person-centered approach
Dr. Amy Price, Chief Executive Officer, Empower2Go, Florida, United States of America & Senior Research Analyst, Medicine, School of Medicine, Stanford University

16:20 Between data & dialogue: person-centred care in the era of genomic data
Dr. Tristan Price, Research Fellow, Collaboration for the Advancement of Medical Education, London School of Hygiene and Tropical Medicine, Honorary Professor, University of Sydney School of Public Health & The Perron Institute for Neurological and Translational Medicine, University of Western Australia

16:40 Self-management Open Online Trials in Health (SMOOTH): Methods and public involvement in research at corresponding authors of ongoing trials
Dr. Joachim P. Sturmberg, Foundation President, International Society for Systems and Complexity Sciences for Health, School of Medicine and Public Health, Faculty of Health Sciences, University of Newcastle, Australia & Adjunct Professor, University of Sydney School of Public Health & The Perron Institute for Neurological and Translational Medicine, University of Western Australia

17:00 PANEL DISCUSSION WITH DELEGATE PARTICIPATION
With invited Panel Discussors Dr. Benjamin Chin-Yee, Dr. Mathew Mercuri, and Professor Joachim P. Sturmberg, Associate Professor of General Practice, School of Medicine and Public Health, University of Newcastle, Australia & Adjunct Professor, University of Sydney School of Public Health, Australia & Adjunct Professor, University of Sydney School of Public Health & The Perron Institute for Neurological and Translational Medicine, University of Western Australia

17:40 AFTERTICK破TH WITH REFRESHMENTS
Lunch and Afternoon Poster Session in Person-Centered Healthcare – Unraveling Clinical Errors, Big Data and Precision Medicine – Innovative Online Trials in Health

Lunch and Afternoon Poster Session in Person-Centered Healthcare – Unraveling Clinical Errors, Big Data and Precision Medicine – Innovative Online Trials in Health

8
Professor Anthony Woodman BSc MSc PhD
Deputy Vice-Chancellor and Provost for Health, University of West London, United Kingdom

Professor Woodman is Deputy Vice-Chancellor and Provost for Health with a remit to drive research, enterprise, innovation and external engagement across the University of West London.

Until 2007 Professor Woodman was Professor of Translation Medicine at Cranfield University, prior to becoming chief executive officer of Person Centered Healthcare, a knowledge-based organisation providing support and training in clinical drug development in India, Singapore and the UK. Anthony joined the University of West London in October 2011.

Professor Anthony Woodman, BSc (Hons) gained a medical degree with distinction in experimental pathology / toxicology followed by a postgraduate training in clinical drug development in India, Singapore and the UK. With over 125 full papers and textbooks published in direct association with an extensive number of UK medical Royal Colleges and medical and biomedical press. He is co-editor of some 47 medical textbooks published in direct association with an extensive number of medical and biomedical press. He is co-editor of some 47 medical textbooks and author of the national postgraduate medical education. He has lectured, and lectures, widely in person-centered care across Europe and elsewhere, and is sought after speaker.

Professor Anthony Woodman represents the University on the Boards of West London Business Action Acton.

Professor Sir Jonathan Asbridge DSc (hc) DHSc (hc)
Professor Sir Jonathan Elliott Asbridge DSc (hc) DHSc (hc), has a long and distinguished record of achievement within British Medicine at Cranfield University, prior to becoming chief executive of Person Centered Healthcare, a knowledge-based organisation providing support and training in clinical drug development in India, Singapore and the UK. Anthony joined the University of West London in October 2011.

He is Senior Vice President and Secretary General of the European Society for Person Centered Healthcare (ESPCH), a major institution he has a profound interest in the modern person-centered management of complex, social and chronic illnesses and in late 2007; appointed Vice Chair and member of its Executive Committee.

He is a former World Health Organisation Senior Fellow, Faculty of Medicine, University of Cambridge; University of Cranfield; University of Medical and Pharmaceutical Sciences, Yerevan, Armenia; The Catholic University of Francisco de Vitoria, Madrid. He has been a Visiting Professor at the State University of Milan, Sofia, Bulgaria, and at the Catholic University of Francesco di Vittoria, Madrid. Stoyanov received his MD from the Medical University of Plovdiv in 2002. He presented a PhD thesis (2005) was a visiting Scholar at the Cambridge University Teaching Hospital London, and a Visiting Professor of Person Centered Healthcare at the University of West London. He is a Fellow of the Royal Society of Medicine in London. He was a member of the British Psychological Society's Committee on Person Centered Healthcare, and Editor-in-Chief of the Journal of Person Centered Healthcare, and Editor-in-Chief of the Journal of Person Centered Healthcare & Co-Director: UWL European Institute for Person Centered Health and Social Care.

Mr. Ray van der Poel PGCE (PCET) BSc (Hons) PDHyp Dip Coun
Head of Business & Development, Counselling and Psychotherapy Central Awarding Body, CPCAB Ltd
Mr. Ray van der Poel has worked within educational management for many years and taught at various universities and levels to a range of audiences. Currently overseeing the management of a video production team, he is enthusiastic about developing resources for counselling, psychotherapy, and other personal and professional development fields.

Mr. Richard Oldfield
New Vision For Mental Health
Mr. Richard Oldfield is the Editor & Creator of New Vision for Mental Health and a consultant for the Counselling & Psychotherapy Central Awarding Body (CPCAB), the only awarding body in Europe to specialise in the field of coaching & psychology. Richard is especially interested in the transpersonal and the possibilities for reconfiguring ‘breakdowns’ in potentially life-enhancing, albeit challenging ways. His interests range from mythology, history, cosmology and philosophy, through to ecology, anthropology, current affairs, politics and (of course) the enormous field of mental health. On a completely tangential note, Mr. Oldfield has twice performed live as a singer on the main stage of the world’s largest pop festival!

Mr. Jane Teasdale
Principal and Director of Business Development, Mosaic Home Care Services & Community Resource Centres, Toronto, Ontario, Canada
Ms. Jane Teasdale is well known for developing awareness of home and health care issues in the community and for promoting collaboration between profit and not for profit service providers in Ontario’s Greater Toronto Area.

Ms. Laila Mohrsen Busted RN PhD
Senior Lecturer, Department of Nursing Education, University College Lillebaelt, Vejle, Denmark & Researcher, Health Sciences, University College Lillebaelt, Lillebaelt/Department of Regional Health Research, Faculty of Health Sciences, University of Southern Denmark, Odense, Denmark
Ms. Laila Mohrsen Busted, Ph.D. student, MSc, RN is a senior lecturer at the University College Lillebaelt, Vejle, Denmark, and a Ph.D. student at the University College Lillebaelt, Lillebaelt/Department of Regional Health Research, Faculty of Health Sciences, University of Southern Denmark.

Dr. Juliette Brown BA MA BMBs MRC (Psych) PG Cert in Clinical Leadership Counsellor, Psychologist, Community Mental Health Team (CMHT) for Older Adults, East London NHS Foundation Trust, London, UK
Dr. Juliette Brown is a consultant psychiatrist of adults and older adults in East London. She studied literature, gender, and political anthropology prior to medicine. She was a Darii Fellow in Clinical Leadership and worked with the academic health science network at UCL on advance care planning for people with dementia. She is a member of Association for Psychosocial Psychotherapy in the NHS and National Network for Dementia Leadership Groups, NHS England, and has received of Association for Psychosocial Psychotherapy in the NHS and National Network for Dementia Leadership Groups, NHS England, and has received of Association for Psychosocial Psychotherapy in the NHS and National Network for Dementia Leadership Groups, NHS England, and has received of Association for Psychosocial Psychotherapy in the NHS and National Network for Dementia Leadership Groups, NHS England, and has received of Association for Psychosocial Psychotherapy in the NHS and National Network for Dementia Leadership Groups, NHS England, and has received of Association for Psychosocial Psychotherapy in the NHS and National Network for Dementia Leadership Groups, NHS England, and has received.

Biographies of ESPCH5 Speakers, Chairpersons, Panels Discussants & Winners of 2018 ESPCH Awards
Dr. Thomas Fröhlich is a medically qualified psychotherapist working in private practice. He initially studied biology before proceeding to study medicine and to complete his postgraduate training in paediatrics, allergy and psychotherapy. He has lectured at the Institute of Medical Informatics Technical University Braunschweig and since 2001 has been CEO of Heidelberg Metasystems GmbH, a research organization mainly focused on asthma prevalence and treatment issues. He has been awarded research grants to develop understanding in his field, including placebo treatments and the need for rigorous evidence with the National Institutes of Health in the United States, the Canadian Institutes of Health Research in Canada, and Harvard University. He has won three teaching awards, appears regularly on television and has written for the British Medical Journal, Annals of Internal Medicine, and top journals such as the British Medical Journal, Annals of Internal Medicine, and the New England Journal of Medicine. Dr. Fröhlich’s work indicates the value of empathy and compassion in clinical practice.

Dr. Jeremy Howick BA MSc PhD
Senior Research Associate, Department of Philosophy and Health Research and Ethics Unit, Oxford University.

Dr. Jeremy Howick BA MSc PhD
Senior Research Associate, Department of Philosophy and Health Research and Ethics Unit, Oxford University.

Phil Hutchinson PhD
Senior Lecturer in Applied Philosophical Ethics, University of West London, UK

Prof. Victoria Tischler BSW MSc SocSc PhD
Professor of Applied Philosophy & Co-Director, European Institute for Person Centred Health and Social Care, University of Hertfordshire, England.

Phil Hutchinson is currently pursuing three related research projects. 1. The Glasgow and Edinburgh Hospitals. He has worked extensively. He has conducted ground breaking research on the placebo response as medically significant response. Drawing upon recent work in the philosophy of mind and new approaches to the placebo effects. Placebos: Behavioural and expectancies responses (cognitive and social) and the role of placebo in clinical practice and in health care. The placebo response as medically significant in patients and how we need unbiased experiments. He has degrees from Dartmouth College, the London School of Economics, and the University of Oxford. He has over 80 academic publications in top journals such as the British Medical Journal, Annals of Internal Medicine, and The Lancet. His textbook The Philosophy of Evidence-Based Medicine: a Canvas for medical practice and person-centred care. He is also an Academic Visitor at the Nuffield Department of Surgical Sciences, University of Oxford and the Oxford Centre for Global Health Ethics, Management and Law. He is currently editing a volume on the philosophy of person-centred care. In 2014 he was elected a Distinguished Fellow of the European Society for Person Centered Healthcare and awarded the Senior Vice President’s Medal for Excellence, for his foundational work in the Philosophy of Person Centered Care. He currently chairs the Society’s Special Interest Group in Health Philosophy and is Associate Editor of the Society’s journal, the European Journal for Person-Centered Healthcare and is currently editing a volume on the philosophy of person-centred care.

Dr. Alexandra Păvan BSc MA PhD
Professor in Communication Sciences, University of Piteşti, Romania
Alexandra Păvan is Lecturer in the Department of Psychology, Communication Sciences at the University of Pitești, Romania. She has degrees in Psychology (BSc, Philosophy (MA, PhD), and is licensed for independent practice in counselling psychology. She held post-doctoral fellowships in St Andrews (UK), Edinburgh (UK), Tübingen (Germany) and Princeton (USA), doing cross-disciplinary research in Augustine Studies and Communication Sciences, with a focus on the metaphysics of evil, harm, violence and disease. Her work introduces the concept of “extensification”, arguing that non-reflexive instrumental rationality cannot be the only form of practical rationality and thus metaphysical frameworks and views could usefully be employed in somatic, clinical and psychiatric contexts. She takes an active interest in the humanistic conception of rationality and science in practice. Her PhD in Communication Sciences is an active member of numerous hospitals and university committees, a scholar of over 100 full scientific papers, hundreds of abstract publications, conferences and publications. She is a supervisor of Master Thesis and of PhD degree. She is currently engaged in an increasing number of partnerships with governmental institutions, creating teaching learning activities under various formats, running postgraduate courses in the Social Medicine Area, and participating in National and International Scientific Meetings in Portugal. He is founder and President of the Board of the Association for Patient Safety (APAIS), Portugal. He is also a founder and a member of the European Society of Endocrine Surgery, the Board of Endocrine Association Portuguese Group of Medical-Surgical Endocrinology. Mr. Aljuaid has published two academic articles related to his doctoral thesis, in BMJ Open (British Medical Journal Open) and in the Journal of Health, Policy, Market Access, Pricing and Reimbursement & Patient Advocacy Lead & Head of Open Innovation Projects, Sanofi-Genevy, Moderna, Italy
Dr. Filippo Cipriani PhD
Professor in Patient Advocacy Lead & Head of Open Innovation Projects, Sanofi-Genevy, Moderna, Italy
Dr. Filippo Cipriani is currently Rare Disease Patient Advocacy Lead & Head of Open Innovation Projects for Sanofi-Genevy, where he previously covered several positions, at national and at European level, in the fields of Health Technology Assessments, Outcome Research, Pricing and Reimbursement & Market Access. Over the years he developed a specific interest in the interconnection between science and society. In 2013 he developed MAKECARE, a multi-stakeholder initiative on patients and health research. In 2017, he founded MAKEIT, a global initiative on patients and health research. In 2017, he founded MAKEIT, a global initiative on patients and health research.

Mr. Mohammed Aljuaid
PhD Student, Department of Primary Care and Public Health, Imperial College, London, UK & Lecturer, Department of Health Administration, King Saud University, Riyadh, Saudi Arabia
Mr. Mohammed Aljuaid is a PhD candidate in the department of Primary Care and Public Health at Imperial College London and has an MSc in Health and Social Welfare studies are supported by King Saud University. His research focuses on a novel application of ‘Person-Centred Care’ within healthcare settings in Saudi Arabia, with a view to extending this concept to the Middle East region.

Mr. Mohammed Aljuaid currently works as lecturer in the Department of Health Administration, King Saud University. Prior to this, he worked at the College of Public Health and Health Education at King Saud University as an Assistant Professor of Biostatistics. He is also a member of the WHO Collaborating Centre for Public Health Education and Training at Imperial College London.

Mr. Aljuaid has published two academic articles related to his doctoral thesis, in BMJ Open (British Medical Journal Open) and in the Journal of Health, Policy, Market Access, Pricing and Reimbursement & Patient Advocacy Lead & Head of Open Innovation Projects, Sanofi-Genevy, Moderna, Italy

Dr. Wendy Wigley EN RGN DipHE BSc
PhD Candidate in International Nursing, Faculty of Health and Care, University of West London, UK
Dr. Wendy Wigley is Interim Head of School of Health Sciences, University of West London and a Visiting Fellow of the School of Health Sciences, University of Southampton.

In nursing, Dr. Wendy Wigley has worked in Paediatrics, Neonatal Intensive Care, General Practice, Emergency Departments and as a Practitioner Teacher.

As a result of this study and previous teaching experience linked to community children’s and families teams, Dr. Wendy Wigley is keen to explore and explain pre-registration nursing students’ personal experiences in clinical practice and spiritual awareness. As a result of this study and previous teaching experience linked to clinical practice and spiritual awareness. As a result of this study and previous teaching experience linked to clinical practice and spiritual awareness.
ensure that students are supported through higher education to gain meaningful and progressive experience of holistic complexity when working with individuals and communities. Dr. Wendy Wigley has expertise in teaching, supervision and curriculum design at undergraduate, postgraduate and doctoral levels. Dr. Wendy Wigley’s guiding ethos is to ensure that educational provision across health and social care, is influenced by quality research evidence, that underpins the student experience, while meeting the workforce needs of care provider organisations across the statutory, private and voluntary sectors. Dr. Wendy Wigley is active in research, and 2018 and 2019 have seen the completion of an NIHR report and currently a research evaluation of a new programme titled a Home Start Initiative. In 2013, Dr. Wigley was awarded the title of Queen Nurse from the Queen’s Nurses Foundation, for recognition of continuing commitment to improving standards of care in the community and to learning and leadership.

Dr Matthews obtained a degree in Law from Trinity College, Cambridge. She then studied at St John’s Seminary gaining a degree in Theology. She studied at St John’s Seminary, Wonersh, near Guildford.

Dr. Matthews followed further studies at St Mary’s University College of Nursing, the Distinguished Fellowship in the European Society for Person-Centered Healthcare and the National Academies of Practice. She has been involved in international research collaboration, and has contributed book chapters on these topics.

Current research collaboration focuses on the nature of multimorbidity from an interconnected physiological perspective, and the study of aging as reflected in heart rate variability.

Selected Bibliography:

- Sturmberg JP. Health System Redesign. Springer 2017

Dr. Joachim P. Sturmberg MBBS
Professor of General Practice, Faculty of Health and Medicine University of Wollongong. He has been instrumental in initiating the International Conferences for Systems and Complexity Sciences for Health.

This research collaboration relates to the applications of systems and complexity principles to health care delivery, health policy and health systems organisation. He has published extensively on these topics in professional journals and has contributed book chapters on these topics.

Dr. Joachim P. Sturmberg MBBS
DDACOG MFM FRACGP PhD
Associate Professor of General Practice, School of Medicine and Public Health, Faculty of Health and Medicine University of Newcastle, Australia & Foundation Professor, School of Systems and Complexity for Health.

For almost 30 years Dr Joachim Sturmberg is practicing family medicine at Wamberal. He is the Foundation President of the International Society for Systems and Complexity Sciences for Health, and he remains actively involved in the Royal Australian College of General Practitioners. He is an active member of the South Florida Haiti Project where he promotes the development of the South Florida Haiti Project where he promotes the development of...

Dr. Carmel Martin MBBS PhD MRCGP FAFPHM
Associate Professor, Department of Medicine, Nursing and Allied Health, Monash Health, Victoria, Australia

An Australian medical graduate from the University of Queensland, Professor Martin completed a Masters in Clinical Epidemiology at the University of Virginia, USA, a PhD in Epidemiology and Population Health at the London School of Hygiene and Tropical Medicine, University of London and a PhD in Epidemiology and Population Health at the London School of Hygiene and Tropical Medicine, University of London. Professor Martin is in active clinical practice as a general practitioner. Her research in Australia, Canada, and the USA focuses on primary care related to chronic care and complex care systems. Her interests, research, and implementation and evaluation cover a wide range of systems-based interventions, underpinned by complex adaptive system theory and social and organisational perspectives. A particular focus is on chronic disease trajectories. This involves modelling and predicting illness and wellness, resilience, tipping points and determinants of change using complex adaptive systems. She is the Joint Editor in Chief of the Handbook on Systems and Complexity in Health (Springer Verlag), Senior Fellow at the National Institute of Public Health and Complexity in Health in the Journal of Evaluation in Clinical Practice (Wolters Kluwer), and Joint Chair of the ESPCH SIG on Complexity Theory, Non-Linearity and PCH, with Associate Professor Iain Young and Professor Joachim Sturmberg, University of Newcastle.

Colin Dr. Marcia Potter Col USAF NC RN DNP-BC
Master Clinician, United States Air Force, United States of America

Col (Dr.) Marcia A. Potter is a Board-certified Family Nurse Practitioner and Master Clinician FPN for the US Air Force, integral to the academic and clinical development of Family Nurse Practitioners in the Air Force Primary Care delivery for three million beneficiaries worldwide. Vestnary and innovative, Col Potter created the AF Nurse Corps professional practice model, Person-Centred Care Partnership Model, focusing on person-centered care and development. She initiated multiple projects engendering care culture change: embedding military chaplains in primary care services, creating a simulation-based care communication initiative to improve inter-professional relations, and developing and implementing a multi-disciplinary Environmental Scan of the Patient Experience Tool for the US Air Force. Col Potter is also a lead author for the creation of the Academic Clinical Nurse Practitioner program at George Washington University School of Nursing. Col Potter brought the Air Force to the Air Force General Reserve, responsible for shaping the FNP Corps, and the entire AF Nurse Corps, to develop and formalize a professional practice model. Her recent articles focus on best practices in interdisciplinary collaboration, advanced education, and leadership. She leads in advancing and guiding the new US Army Corps, preparing future FNP leaders for the current and future battlefield. Her work has been recognized with the AF Nurse Corps Caring Award in 2016 and 2017, the Distinguished Service Medal, and the promotion to Colonel, USAF (Ret) in 2019.

Dr. Mathew Mercuri BKin MSc PhD
Editor-in-Chief, Journal of Evaluation in Clinical Practice, Founder, Centre of Excellence for Medicine, McMaster University, Canada

Dr. Mathew Mercuri completed his PhD in Neurosurgery at McMaster University (Hamilton, Canada), and a postdoctoral fellowship in the Department of Neurosurgery at the University of Maryland, Baltimore, USA. He is currently an Assistant Professor at the University of British Columbia and a Researcher at the University of Technology, Sydney, Australia. He is also an Assistant Professor in the Faculty of Health Sciences at the University of Technology, Sydney, Australia. His current research focuses on improving patient care and how we use that information to support policy decisions on the provision of healthcare services. His publications include Moral Theory and Medical Practice, Essential Value-based Practice, The Oxford Handbook of Philosophy of Medicine, and Medical Ethics and Clinical Praky. He has served as the President of the Canadian Society for Medical Ethics, and as the Chair of the Canadian Medical Association Ethics Committee for 23 years. He has served on National Health and Medical Research Council committees: the Australian Health Ethics Committee, and the Prevention and Community Health Committee. Samar Aoun is currently the Chair of the Advisory Board of the International Journal of Palliative Care and is a member of the editorial advisory board of Palliative Medicine, the Oxford Handbook of Palliative Care, and the Oxford Handbook of Palliative Medicine. She is a member of the editorial advisory board of Palliative Medicine, the Oxford Handbook of Palliative Care, and the Oxford Handbook of Palliative Medicine.

Dr. Mathew Mercuri is the new Editor-in-Chief of the Journal of Evaluation in Clinical Practice, which he will take over from Professor Andrew Miles in January 2019.
Dr. Joseph Merritt is a Chartered Psychologist and Research Fellow at the Centre for Health Services Studies at the University of Kent. He has 10 years' experience in developing and leading complex interventions, and has extensive knowledge and expertise in the development of randomised controlled trials with a specific focus on physical activity, evaluation methodologies, and delivering training to healthcare professionals.

Sarah has received funding research awards from The Big Lottery, the Department of Health, the National Institute for Health Research, and the Economic and Social Research Council. She is also an Honorary Professor at Queen Mary University London. She trained at the Royal Free, University College London and an Honorary Consultant Neurologist at Luton and Dunstable Hospital Trust. She is also an Honorary Professor at Queen Mary University London. She trained at the University Hospital in Berlin and the Institute of Neuroscience at Sydney University. She has served on the Parkinson's UK Research Advisory Board and is the Lead of the North London UK Parkinson's Excellence Network. She has a close relationship with the Parkinson’s Disease Association, including the development and analysis of results of a Europe-wide study on the healthcare experiences of people with Parkinson’s. Her current research programme includes collaborative studies on the Care of Late Stage Parkinsonism, an Antidepressant Trial for patients with Parkinson's, on Predicting risk in Parkinson's, and on Personalising Care for people with Parkinson's.

Dr. Annette Schrag is a Professor of Clinical Neurosciences at University College London, UK. Professor Anette Schrag was recently honoured to receive the Gold Medal of the European Society for Person Centered Healthcare as well as evidence and expertise. Professor Jack Dowie was recently honoured to receive the Gold Medal of the European Society for Person Centered Healthcare for his work in this area.

Dr. Elisa Ambrosi BSN MSN PhD
Assistant Professor, Department of Medical and Surgical Sciences, University of Bologna, Italy

Elisa Ambrosi is Senior Assistant Professor at the School of Nursing of the University of Bologna. She is qualified as an Associate Professor of Nursing. She completed a PhD in Nursing at the University of Verona (Italy) with a thesis on caring perceptions and behavioral strategies related to the care goals of nurses progressed through their nursing education. As a doctoral student, she spent a quarter at University of California, Los Angeles studying the role of Qualitative Research Methodology. She lectures in Distance Education and presents international research data at national and international congresses. She is a member of the Italian Society of Nursing Researchers. Her professional background includes work in the area of qualitative and participatory health research. She has published extensively on caring in nursing, has co-authored a book and has organised and presented an international conference on nurses’ caring gestures and thoughts. In addition, her research interests are focused on nursing sensitive outcomes and workforces issues. 

Dr. Mary Price PhD
Chief Executive Officer, Empower2Go, Florida, United States of America & Senior Research Analyst, MedscapeX, School of Medicine, Stanford University & The Patient Editor of Research and Evaluation at The British Medical Journal & Department of Continuing Education, University of Oxford, UK

Dr. Mary Price worked as a Neurocognitive Rehabilitation Consultant and in Internal Medicine before sustaining serious injury and years of rehabilitation. She emerged with a goal to build a bridge between research methodology, research involvement and public engagement where the public is trained and empowered to be equal partners in health research. Mary’s experience has shown her that shared knowledge, interdisciplinary collaboration and evidence based research will shape and develop the future. She serves as a BMJ editor and as a senior researcher advocate with MedscapeX, Department of Anesthesiology Stanford University.

Dr. Matte Kjer Kalføt PhD
Odense University Hospital, Svendborg, Denmark & University of Southern Denmark, Odense, Denmark

Matte obtained her PhD in 2015 with the thesis “Towards improved decision quality in person-centred healthcare: exploring the use of Criterias Based Multi-Criteria Decision Analysis” at the Research Unit of Medical Decision Analysis, Odense University Hospital, Svendborg Sogn and the Centre for Multicriteria Evaluation, University of Southern Denmark (SDU). Her professional background included MPhil in sexual and reproductive health and rights, post-graduate courses at Mayo Medical Center and obstetrics at a WHO-accredited Family Planning Study Centre in Nairobi (Kenya). She also completed a Medical degree in Physiotherapy at the Danish University of Health Sciences. Her work has included a post-doctoral fellowship at the University of Southern Denmark (SDU) focusing on the organisational impacts of medical decision support tools has just ended, involving an app integrated with the EHJ in Denmark. Her research includes a number of systematic reviews on topics related to communication, decision support in patient-centred healthcare and primary qualitative research on the organisational impacts of medical decision support. 

Dr. Dristan Price BSc MSc PhD PGCE PGCHE
Research Fellow, Collaboration for the Advancement of Medical Education Research and Assessment (CAMERA), Faculty of Medicine and Dentistry, University of Plymouth, Plymouth, UK

Dr. Dristan Price is a research fellow in the Collaboration for the Advancement of Medical Education Research and Assessment (CAMERA) at the University of Plymouth. Dristan came to medical education research from a background in teaching in both the secondary and higher education sectors. Dristan has a particular interest in research on educational and behavioural change interventions and is currently working on a study to explore the idea of embedding decision-making support in healthcare. His current research includes a number of systematic reviews on topics related to rematuration, doctor-patient decision making, and interest-based learning. He completed his PhD topic was a primary qualitative research on the organisational impacts of medical decision support.

Dr. Benjamin Chin-Yee MA MD Resident Physician, Department of Medicine, Faculty of Medicine, University of Toronto, Canada

Benjamin Chin-Yee is an internal medicine resident at the University of Toronto, where he has completed his MD and MA in the history and philosophy of medicine. His research spans a range of disciplines, from bioethics to the history and philosophy of medicine. He is particularly interested in the ethics of the patient-physician relationship and how to integrate evidence-based and precision medicine to provide individualized, person-centered care. His current work explores the ethical implications of big data and genomics in medical practice. He has authored a number of articles and book chapters, which have been recognized with local and international awards, including the 2016 Essay Prize from the European Society for Person Centered Healthcare. He has served as guest editor for the Journal of Evaluation in Clinical Practice and Studies in History and Philosophy of Biological and Biomedical Sciences.

Professor Mary Chambers Dip.I.None BSc(RS(Hons)) RNT PhD PGCE PGDE RGN
Director of Mental Health Nursing; Director, Centre for Public Engagement & Associate Editor, Health Expectations, Faculty of Health, Social Care and Education, St. George’s University Hospital Campus, St. George’s University of London, UK

Mary is Professor of Mental Health Nursing and Director of the Centre for Public Engagement, Faculty of Health, Social Care and Education, Kingston University and St. George’s, University of London. Throughout her career, she has held a number of clinical, managerial and academic positions including coordinator of the Northern Ireland Centre for Health Information and Policy Analysis, Ireland; and director of the project ‘It’s your Health: a focus on international collaboration’ based in the USA.

Dr. Tristan Price BSc MSc PhD PGCE PGCHE
Research Fellow, Collaboration for the Advancement of Medical Education Research and Assessment (CAMERA), Faculty of Medicine and Dentistry, University of Plymouth, Plymouth, UK

Dr. Dristan Price is a research fellow in the Collaboration for the Advancement of Medical Education Research and Assessment (CAMERA) at the University of Plymouth. Ms. Kristina Stoyanova BA MSc.Ed
PhD Student, Department of Psychology, South West University “Necifl Rilski”, Blagoevgrad, Bulgaria & Winner of the 2018 ESPCH Young Researcher Prize in Person-Centered Healthcare Research

Ms. Kristina Stoyanova is a supporter of person-centered approach to education, and has preferred research interests in the fields of organizational psychology, social psychology, experimental psychology, neuropsychology, and neuropsychology in general. Outside of psychology, her research interests extend in the direction of counseling, psychoanalytic (especially in the spirit of the Yungian school), affinity to the Neo-Reichian psychotherapeutic school, and psychodrama.

Ms. Stoyanova holds a Bachelor Degree in Psychology (2006) and Master’s of School Psychology (2012), from South West University “Neofit Rilski”, Blagoevgrad, Bulgaria, and currently she is continuing her post-graduate research studies at the Department of Psychology of the same University, where she is undertaking training in the Doctoral degree program “Pedagogical and age psychology”. She has studied the relationship between burn out and the psychological types of university lecturers (Yung's paradigm), and her dissertation explores the relationship between burn out, emotional intelligence and coping strategies of teachers in support for her believe in.

Also, in within the same context she published:
• Stoyanova К. Interview With Drozdstoy Stoyanov About Burn-Out. Psychological Thought. 2018; 11(1): 45-51
• Stoyanova K. A Neo-Reichian Reading of Burn-out – talk with Madlen Algafari. Psychological Thought. 2018; 11(2): 234-241

Mr. Alexander Silverstein
Diabetes Education & Engagement Lead, NHS North West London Collaboration of CCGs & Winner of the 2018 ESPCH Young Teacher Prize in Person-Centered Healthcare Education

Mr. Alexander Silverstein is an international patient advocate, NHS employee and self-employed consultant. He worked for the charity Diabetes UK before becoming the first President of the International Diabetes Federation’s (IDF) Young Leaders in Diabetes programme. In his role, Mr. Silverstein led 200 young adults from 102 different countries to deliver projects with their national diabetes charities. In 2014, he launched the national campaign HelloOURaimis with Dr Kate Granger, to build a partnership model of care between patients and healthcare professionals. This work has taken place by a number of organisations across the world to learn about the importance of person centred care, shared goal setting and care planning. He also worked with the NHS London clinicians to deliver projects with their young adults called “Made in London;” he currently works for the NHS, as part of a diabetes transformation programme across North West London. His role is to support over 350,000 people learn about diabetes in a way that suits them by 2021. This includes the use of tools, such as apps, lay-educators and community champions and e-learning, whilst also developing a mechanism for people with diabetes and healthcare professionals to access training, support, medical records and behaviour change tools through a single website. He is also a member of the British Medical Journal’s patient panel. Mr. Alexander Silverstein is passionate about ensuring that no matter where someone lives they receive the Equipment, Education, Empathy and Engagement opportunities to be a partner in their care.
