at Hospital of Southern Denmark, Aabenraa

Department of Gynecology and Obstetrics, Hospital of Southern Denmark Aabenraa arranges one day seminar on upright breech birth. The seminar is a learning based forum with international experts, newest literature on the subject and extensive hands-on workshops. The aim of the conference is to allow participants to become qualified in assisting normal and complicated upright breech birth and advice on how to build a sustainable breech birth practice.

The department in Aabenraa has since 2016 implemented upright breech birth.

The seminar is located in:
Lærings og Forskningshuset, Aabenraa.
